## AVID Community Service Verification Form

Dear Community Service Organizer,

AVID (Advancement Via Individual Determination) students are expected to go beyond their academic program to enhance their learning experiences. Therefore, all AVID students should participate in community service experiences. This requirement is not based on community service “hours” because we do not want our students to consider service on an “hourly” basis. Instead, we want our students to experience the spirit of “learning while giving”. Therefore, you do not need to record hours, but we hope that you will encourage our students to participate in some sort of sustained community service within your program.

If your program has a community service verification form, you may use it in lieu of completing this form. However, please provide your signature and contact number should we need to ask further questions or learn more about this particular service opportunity.
